

High-Volume Server

Install today, Redact tomorrow

RapidRedact High-Volume Server (HVS) is an out of the box, 3rd Generation redaction system.

It is designed for firms that have high volume discovery redaction requirements. High-Volume Server helps overcome the rising cost of litigation support faced by legal firms and litigation support companies.

Who uses RapidRedact HVS ?

Law Firms and Litigation Support Businesses that need to remove sensitive content from briefs, exhibits, divorce decrees, deeds of title, custody documents, writs of garnishment etc

RapidRedact HVS works with over 150 document types

Including:

- Outlook Emails & attachments
- Microsoft Word and PowerPoint documents
- Excel spreadsheets
- PDF documents
- Scanned documents
- Image formats

Why use RapidRedact HVS?

- Cost effective. Efficient in the use of time, money and people
- Gentle on the environment. Completely paperless process
- Simple to install and use
- Secure Have confidence in the security of your discovery output – present your case knowing that there is no hidden data in the discovered documents.
- Control Meet your in-house deadlines
- Completely scalable for small and large volumes at a price that is scaleable to your needs and budget
- Unlimited reviewers - resource the jobs with more reviewers at no cost
- Minimum training Redaction and reviewing are intuitive – just like having the paper in your hands.
- Compatible Installs and easily integrates into your existing systems
- Review and Audit copies of every document are available
- Easy reprocessing No need to repeat redaction

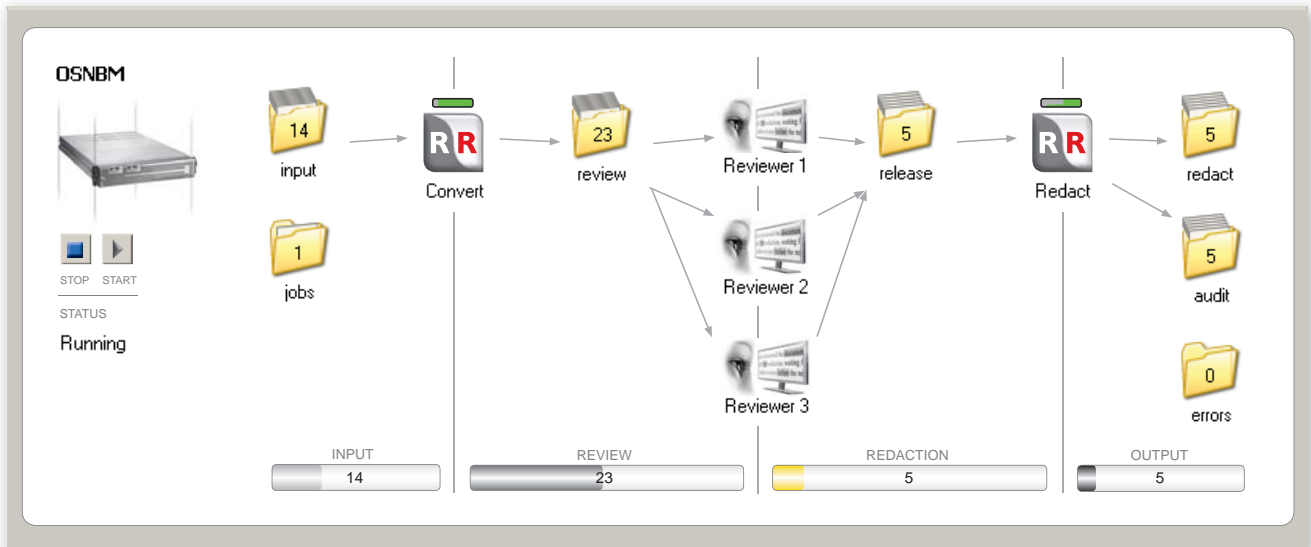

RapidRedact HVS gives you the ability to:

- Queue, process and redact large volumes of multi-format documents quickly and efficiently
- Transform your document redaction services into profit centres with billing technology
- Reduce the amount of time users spend redacting documents
- Lower the costs of large scale redaction needs
- Install immediately – no development required
- Automate the redaction process for large batches of mixed document types
- Assign unlimited reviewers
- Create a new, redacted rendition of the file as PDF or TIFF. The original document remains untouched.

Handles thousands of documents . . . and documents which are thousands of pages long.

RapidRedact HVS Process Flow

RapidRedact HVS

Input

Handles multiple document types

Queuing

Manages job input and output through XML files

Reviewing

Can be reviewed many times by many people:

- Original document is retained without changes
- Review documents retained as translucent copies

Output

Final redacted documents can be saved or emailed, including a translucent copy for audit purposes.

RapidRedact HVS features

- Allocate reason for redaction (exemption codes)
- Save an audit trail for legal purposes
- Automatic text search
- Bracketed text removal
- Automatic word removal
- Works across multiple pages and columns
- Specify your redaction terms
 - Auto apply codes
 - Auto redact social security numbers, email addresses, credit card numbers etc.
 - OCR image areas in documents
 - Specify interpreting application (eg. retain headers and footers in MS Word)
- Document integrity and spoliation – The original document file is opened and closed without making any changes.

System Requirements

- Windows server 2000 or 2003 or Windows XP
- .Net Framework 2.0
- Microsoft Domain for multiple client server configurations
